Celebrate California Wine Month in September

Raise a Glass to Harvest at More Than 50 Winery Events Around the State

SAN FRANCISCO – September marks the 13th annual California Wine Month, and it's the perfect time to experience the annual harvest season. Wine enthusiasts can enjoy special tastings, festivals, concerts, wine and food offerings and more at wineries and other venues throughout the state.

Vines have been grown in California for nearly 250 years, and the state is the fourth largest producer of wine in the world. California Wine Month was created to honor the culture of tradition and innovation built by the state's 4,700 vintners and 5,900 growers and to recognize wine's many contributions to the state and nation.

California is the most visited state in the U.S. for food and wine-related activities, with 24 million visits to the state's wine regions each year.

California wineries offer a vast array of activities and amenities such as music, art, theater and gardens as well as hands-on visitor experiences.
